

Structural Engineers Association of Colorado Young Member Group

Engineering Day with SEAOG

Feb 14th & 16th, 2017
Walter P. Moore, Atlanta, GA

SEAOG YMG hosted two student groups in preparation for E-Week at the offices of Walter P. Moore in Atlanta, GA. Our members guided the students through a powerpoint presentation with an overview of the engineering profession and followed that up with a few hands on engineering activities. The students left with a whole new appreciation for what it means to be an engineer and also got a tour of the office!
